

**Output from  
Advancing Practice in Primary and Community Care North West Virtual Event  
Wednesday 27th January 2021**

Session / Start time	Recording	Questions / Answers	Resources agreed to share
Introductions 0 Minutes	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	
Housekeeping 4.38 minutes	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	
Advancing Practice Faculty 8.47 minutes	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	
Advancing Practice ICS perspective 20.45 minutes	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	To share the tailored appraisal process used by secondary care for Advanced Practitioners
Pharmacy Advanced Practice 41.35 minutes	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	<p><b>Question</b> If you have a clinical masters are you still required to credential?</p> <p><b>Answer</b> Clinical pharmacists graduate with a Masters degree but to be recognised as an Advanced Practitioner they still need to either complete the Advancing Practice programme or complete the credentialing process.</p> <p><b>Question</b> Who leads the credentialing of Pharmacists?</p>	None

		<p><b>Answer</b></p> <p>The Royal Pharmaceutical Society (RPS) will credential practitioners but with reference to the four pillars within Health Education England's <a href="#">Multi-professional framework for advanced clinical practice in England</a></p> <p>If the practitioner has completed the Advanced Practice University Programme they will still need to complete some additional modules provided by the RPS to successfully complete the credentialing process.</p>	
<p>Paramedic Advanced Practice</p> <p>54.45 minutes</p>	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	Non raised	<p>For Paramedics who are interested in the in completing the Roadmap Supervision &amp; Verification Training please contact <a href="mailto:scott.murray@GP-y01008.nhs.uk">scott.murray@GP-y01008.nhs.uk</a></p> <p>A copy of the Road Map to Practice is available <a href="#">here</a></p>
<p>Nursing Advanced Practice</p> <p>108.32 minutes</p>	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	
<p>Physiotherapy Advanced Practice</p> <p>120.45 minutes</p>	<a href="https://youtu.be/2pNgjO8NEwY">https://youtu.be/2pNgjO8NEwY</a>	None raised	<p>If you are a first contact Physio and want to be part of the North West peer</p>

			support group please feel free to contact <a href="mailto:philip.driver@nhs.net">philip.driver@nhs.net</a>
Re-cap 0 minutes	<a href="https://youtu.be/1qB3uLgdnGI">https://youtu.be/1qB3uLgdnGI</a>	None raised	None
Advancing Practice Apprenticeships 4.15 minutes	<a href="https://youtu.be/1qB3uLgdnGI">https://youtu.be/1qB3uLgdnGI</a>	<p><b>Question</b> Could you clarify what is expected from trainee Advanced Practitioners on the apprenticeship route in terms of their supernumerary status?</p> <p><b>Answer</b> This can be established by checking with the Higher Education Institution (training provider) who are providing the apprenticeship training as the training can be delivered differently by each provider.</p>	
HEE Funding Application Process 21/22 22.30 minutes	<a href="https://youtu.be/1qB3uLgdnGI">https://youtu.be/1qB3uLgdnGI</a>	<p><b>Question</b> I have an apprentice who started this month and we missed out on HEE funding for 20/21 due to appointing into the position after the last deadline. Are we able to still apply for 21/22 funding for the Sept cohort for this person, who started her apprenticeship in Jan 2021?</p> <p><b>Answer</b> Yes, you can apply for funding for this person and we will treat them in exactly the same way as all the other expressions of interest in funding received. However, HEE's provision of salary support for study will not be retrospectively paid from January 2021 it will be paid from September 2021 which is the first cohort in 21/22 academic year.</p>	A word version of HEE's funding application form to be distributed, so that employers know what info is needed before starting to complete the form

		<p><b>Question</b> Does HEE's Advancing Practice funding support a Primary Care Network (PCN) Additional Roles Reimbursement Scheme (ARRS) employee?</p> <p><b>Answer</b> Yes, they can be employed in PCN's. We have previously supported applications for funding from local care organisations. Also, the funding can be applied for if the person is in an ARRS role because they are different funding streams.</p> <p><b>Question</b> If a GP Federation is employing the Advanced Practitioner on behalf of a PCN can they submit the Expression of Interest (EOI) funding form?</p> <p><b>Answer</b> Yes, that is fine.</p>	
Breakout Session Greater Manchester	<a href="https://youtu.be/X_5dFmPY8sE">https://youtu.be/X_5dFmPY8sE</a>	<p><b>Question</b> When a student is working supernumary (supernumerary meaning that students cannot be counted as part of the workforce when they are learning in a clinical setting) how can we quantify they are supernumary but also ensure we give them the level of mentorship and ensure safe practice?</p> <p><b>Answer</b> There is no requirement for the student to have supernumary status for the Advancing Practice apprenticeship at Manchester Metropolitan University. The only requirements is for the employee to work a minimum of 30 hours a week and meet the</p>	

		<p>20% off the job training requirement. It is up to each individual HEI and employer to determine whether the employee needs supernumary status for the learning they are undertaking. Regarding the 20% off the job training, it is recommended the employers consider the learning needs across the whole week and not just the University learning days the trainee AP undertakes.</p> <p><b>Question</b> Bolton University now say you don't need to have a DMP as a direct supervisor for NMP. Is that happening in other HEI's? (A <i>Designated Medical Practitioner is the medical practitioner who directs and supervises a non-medical prescriber's period of learning in practice which forms part of non-medical prescribing qualification requirements</i>)</p> <p><b>Answer</b> This won't be the same for every HEI but most Universities should be on board with the new standards for NMP qualifications by next September. There are still a few Universities that have not gone through that process because it was pushed back with the NMC due to Covid-19. Recommend to check with local HEI.</p>	
Breakout Session Cheshire and Merseyside	<a href="https://youtu.be/MhX4Fh55GVY">https://youtu.be/MhX4Fh55GVY</a>	None raised	
Breakout Session Lancashire and South Cumbria	<a href="https://youtu.be/ND4SvguJv">https://youtu.be/ND4SvguJv</a> <a href="#">m8</a>	<p><b>Question</b> Are many Pharmacists choosing to do the Advancing Practice training over the Pharmacy Pathway training?</p>	

		<p><b>Answer</b></p> <p>If the employee is employed in an ARRS role they will need to complete the PCPEP training first before undertaking the Advancing Practice programme.</p> <p><i>(The Centre for Pharmacy Postgraduate Education (CPPE) is commissioned by HEE to deliver training to pharmacy professionals working in primary care as part of the primary care Network Contract Directed Enhanced Service (DES). We have developed the Primary Care Pharmacy Education Pathway (PCPEP) to align the education requirements of the pharmacists and pharmacy technicians.)</i></p> <p><b>Question</b></p> <p>Now we have the First Contact Practitioner Pathway, is that essential to undertake first before going on the Advancing Practice programme at University?</p> <p><b>Answer</b></p> <p>No, it is not necessary to have completed the modules on the First Contact Physio Practitioner Pathway as a pre-requisite to undertaking the Advanced Practice programme at University.</p>	
Summary and Close	<a href="https://youtu.be/jizMSe8kCjE">https://youtu.be/jizMSe8kCjE</a>	None Raised
