

Lancashire & South Cumbria Primary Care Training Hub

Standard Placements

Learners will remain in one practice for the whole allocated time.

This enables the learner to develop into the team, learn an in-depth view of a practice and the roles the staff play and how they interact to provide services to the local population.

A placement in primary care allows the learner to expand their knowledge and understanding of the role of other care providers and members of the health and social care team.

It provides a great opportunity to experience multidisciplinary team working and what the world of primary care can offer as a career choice
