

# **The Oliver McGowan Mandatory Training in Learning Disability and Autism Tier 1**

The Health and Care Act 2022 introduced a requirement that regulated service providers must ensure their staff receive learning disability and autism training appropriate to their role.

The Oliver McGowan Mandatory Training on Learning Disability and Autism is the standardised training that was developed for this purpose and is the government's preferred and recommended training for health and social care staff.

This is a 1 hour online interactive session delivered by a trio of trainers approved by NHS England. The session will be co facilitated and will include a person with a learning disability and an autistic person.

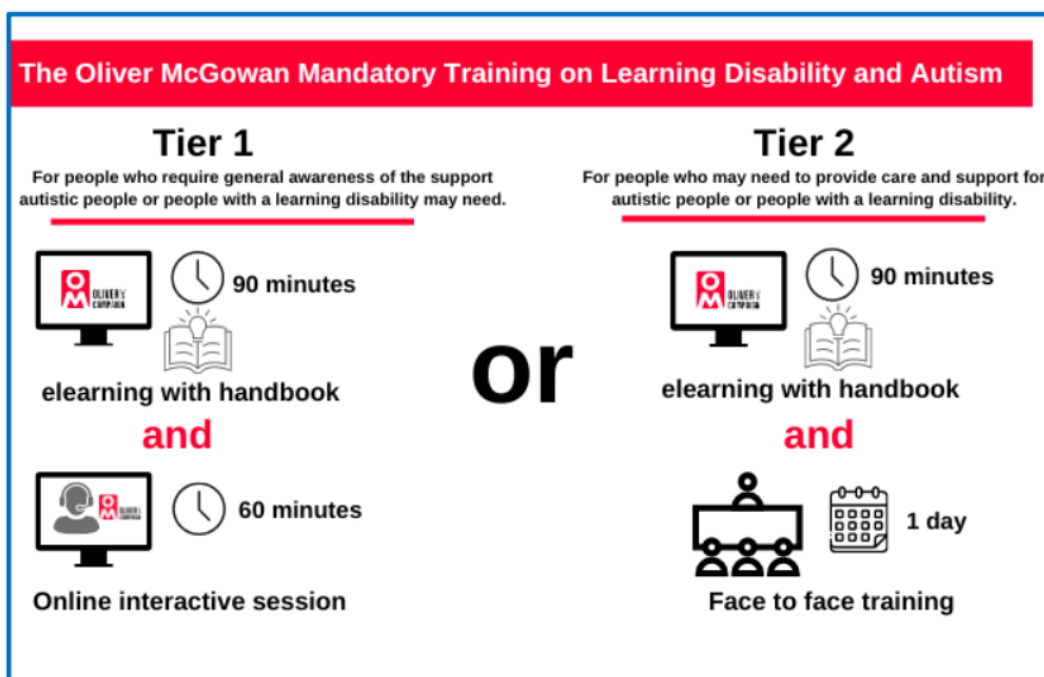

The webinar forms the second part of the Tier 1 course and is for people who have completed the e-learning module on E-Learning for Health care.

## What is the training structure for the Oliver McGowan training?

The training is standardised and to complete it individuals must:

- Complete the e learning package and
- Tier 1 – the 1 hour online interactive session co-delivered by experts with lived experience and a facilitating co-trainer **or**
- Tier 2 – the 1-day face to face training co-delivered by experts with lived experience and a facilitating co-trainer.

This tier 1 workshop is for people who require general awareness of the support autistic people or people with a learning disability may need. It is ideal for receptionists, admin staff, practice managers, pharmacists, cleaners, ward clerks etc.

The purpose of the webinar is to:

- Ask questions, listen and talk to someone with a learning disability and an autistic person.
- Talk about reasonable adjustments.
- Dispelling myths about people with learning disabilities and autistic people.

There is no cost for this training if you work within Primary Care services in Lancashire and South Cumbria or LSC FT.

The workshop will be delivered on zoom

Delegates will need to submit their e learning certificate prior to joining the session. The e learning can be accessed here and takes about 90 minutes to complete.
