

Name of T level	Health (Adult Nursing) and Health (Allied Health Professionals)
Course Summary	This technical qualification is suitable for post-16 students looking to develop both knowledge and practical skills in the health and care sector and supports students onto a range of progression routes including employment, higher education and higher apprenticeships.
Modules	Included within this programme are subjects such as: Health and wellbeing Consideration of additional and individual needs Health and social care values Communication and person-centred care Calibration and accurate use of equipment Use of mobility aids and tasks to support with daily living Supporting the referral process to external services Supporting discharge from primary care Human biology, including anatomy and physiology Physics including electromagnetism and types of radiation waves Chemistry including acid-base reactions and titration
Block or Day Release or Mixed	Day release (Thursday + Friday)
Start date of placement and Yr1 or Yr2 student	B&FC apply for students' DBS and fund its cost. As soon as DBS is received and any mandatory training of induction completed they can start with you! The placement often spans Year 1 and Year 2 of the programme.
Number of hours required for placement (Can this placement be shared with another employer)	T Level qualifications require students to complete a minimum of 315 – though this can be shared between you and another employer
Key Requirements for an Employer (Induction, H&S, Mentor etc)	<ul style="list-style-type: none"> • Health and Safety checks will be carried out by the B&FC placement team • Students would benefit from a mentor in the workplace • Induction on their first day • Ideally an interview
Key Requirements for the Training Provider (their responsibilities)	If you are interested in providing a T Level placement or want to know more, B&FC will provide you with an Employer Handbook, which details the key responsibilities.

What will the student learn while on placement?	Exposure to the setting, to the sector, to the job role is vital. There are no specific placement learning outcomes prescribed by the qualification.
Placement structure and learning goals (agreed learning objectives) including activities required and a list of “Do and Don’ts”	This will be determined by the setting’s own policies regarding those on a volunteer placement. The Duties can then be sense-checked and agreed with B&FC in line with risk assessments in place.
How will the student be assessed while on placement	Not applicable for a health-related T Level
Does the student require supervision?	This is dependent on tasks required by you – however we have a key contact (our Industry Placement Co-ordinator) who will provide advice on what may / may not be suitable.
Risk Assessment required Yes/No	Yes, B&FC conduct and update all risk assessments for any student industry placement settings. We will liaise with you every step of the way. We will need your Public Liability insurance details as part of our risk assessment.
Any insurance required for the employer supporting a student?	Yes
DBS – Type e.g. Enhanced, transferrable – Adult/children	Yes – funded and applied for by B&FC
Progression (Apprenticeship programmes/Job Roles etc)	Yes – to higher and degree apprenticeships in related field
Funding - Yes/No - How to claim	Yes – please see link
